

**LIST OF PUBLICATIONS**  
**RALPH M. REITAN, PhD**

---

1. Aita JA, Armitage SG, Reitan RM, & Rabinovitz A. 1947. The use of certain psychological tests in the evaluation of brain injury. *Journal of General Psychology*, 37, 25-44.
2. Aita JA, & Reitan RM. 1948. Psychotic reactions in late recovery period following brain injury. *American Journal of Psychiatry*, 105, 161-169.
3. Aita JA, Reitan RM, & Ruth JM. 1947. Rorschach's Test as a diagnostic aid in brain injury. *American Journal of Psychiatry*, 103, 70-779.
4. Boll TJ, Heaton RK, & Reitan RM. 1974. Neuropsychological and emotional correlates of Huntington's Chorea. *Journal of Nervous and Mental Disease*, 158, 61-69.
5. Boll TJ, & Reitan RM. 1970a. Deficits in adaptive abilities in Parkinson's disease. *Proceedings of the American Psychological Association*.
6. Boll TJ, & Reitan RM. 1970b. Psychological test results of subjects with known cerebral lesions and Parkinson's disease as compared with controls. *Perceptual and Motor Skills*, 31, 824.
7. Boll TJ, & Reitan RM. 1971. Review of EW Russell, C Neuringer, & G Goldstein. Assessment of brain damage: A neuropsychological key approach. New York: Wiley-Interscience. *Professional Psychology*, 2, 410-413.
8. Boll TJ, & Reitan RM. 1972a. Comparative ability interrelationships in normal and brain-damaged children. *Journal of Clinical Psychology*, 28, 152-156.
9. Boll TJ, & Reitan RM. 1972b. The comparative intercorrelations of brain-damaged and normal children on the Trail Making Test and the Wechsler-Bellevue Scale. *Journal of Clinical Psychology*, 4, 491-493.
10. Boll TJ, & Reitan RM. 1972c. Motor and tactile-perceptual deficits in brain-damaged children. *Perceptual and Motor Skills*, 34, 343-350.
11. Boll TJ, & Reitan RM. 1973. Effect of age on the Trail Making Test. *Perceptual and Motor Skills*, 36, 691-694.
12. Davis LJ, Hamlett I, & Reitan RM. 1966. Relationships of conceptual ability and academic achievement to problem-solving and experiential backgrounds of retardates. *Perceptual and Motor Skills*, 22, 499-505.

13. Davis J, & Reitan RM. 1966. Methodological note on the relationships between ability to copy a simple configuration and Wechsler Verbal and Performance IQs. *Perceptual and Motor Skills*, 22, 281-332.
14. Davis J, & Reitan RM. 1967. Dysphasia and constructional dyspraxia items and Wechsler Verbal and Performance IQ in retardates. *American Journal of Mental Deficiency*, 71, 606-608.
15. Dikmen S, & Reitan RM. 1974a. Minnesota Multiphasic Personality Inventory correlates of dysphasic language disturbances. *Journal of Abnormal Psychology*, 83, 675-679.
16. Dikmen S, & Reitan RM. 1974b. MMPI correlates of localized cerebral lesions. *Perceptual and Motor Skills*, 39, 831-840.
17. Dikmen S, & Reitan RM. 1976. Psychological deficits and recovery of functions after head injury. *Transactions of the American Neurological Association*, 101, 72-77.
18. Dikmen S, & Reitan RM. 1977a. Emotional sequelae of head injury. *Annals of Neurology*, 2, 492-494.
19. Dikmen S, & Reitan RM. 1977b. MMPI correlates of adaptive ability deficits in patients with brain lesions. *Journal of Nervous and Mental Disease*, 165, 247-254.
20. Dikmen S, & Reitan RM. 1978. Neuropsychological performance in post-traumatic epilepsy. *Epilepsia*, 19, 177-183.
21. Dikmen S, Reitan RM, & Temkin NR. 1983. Neuropsychological recovery in head injury. *Archives of Neurology*, 40, 333-338.
22. Dikmen S, Reitan RM, Temkin NR, & Machamer JE. 1992. Minor and severe head injury emotional sequelae. *Brain Injury*, 6, 477-478.
23. Doehring DG, & Reitan RM. 1960. MMPI performance of phasic and non-aphasic brain-damaged patients. *Journal of Clinical Psychology*, 16, 307-309.
24. Doehring DG, & Reitan RM. 1961a. Behavioral consequences of brain damage associated with homonymous field visual defects. *Journal of Comparative and Physiological Psychology*, 54, 489-492.
25. Doehring DG, & Reitan RM. 1961b. Language disorders in brain-damaged patients. The effects of homonymous visual field defects. *AMA Archives of Neurology and Psychiatry*, 5, 294-299.

26. Doehring DG, & Reitan RM. 1962. Concept attainment of human adults with lateralized cerebral lesions. *Perceptual and Motor Skills*, 14, 27-33.
27. Doehring DG, Reitan RM, & Kløve H. 1961. Changes in patterns of intelligence test performances associated with homonymous visual field defects. *Journal of Nervous and Mental Disease*, 132, 227-233.
28. Finlayson MAJ, Johnson KA, & Reitan RM. 1977. Relationship of level of education to neuropsychological measures in brain-damaged and non-brain-damaged adults. *Journal of Consulting and Clinical Psychology*, 45, 536-542.
29. Finlayson MAJ, & Reitan RM. 1976a. Handedness in relation to measures of motor and tactile-perceptual functions in normal children. *Perceptual and Motor Skills*, 43, 475-481.
30. Finlayson MAJ, & Reitan RM. 1976b. Tactual perceptual functioning in relation to intellectual, cognitive, and reading skills in younger and older normal children. *Developmental Medicine and Child Neurology*, 18, 442-446.
31. Finlayson MAJ, & Reitan RM. 1980. Effect of lateralized lesions on ipsilateral and contralateral motor functioning. *Journal of Clinical Neuropsychology*, 2, 237-243.
32. Fitzhugh KB, Fitzhugh LC, & Reitan RM. 1961. Psychological deficits in relation to acuteness of brain dysfunction. *Journal of Consulting Psychology*, 25, 61-66.
33. Fitzhugh KB, Fitzhugh LC, & Reitan RM. 1962a. The relationship of acuteness of organic brain dysfunction to Trail Making Test performances. *Perceptual and Motor Skills*, 15, 399-403.
34. Fitzhugh KB, Fitzhugh LC, & Reitan RM. 1962b. Wechsler-Bellevue comparisons in groups with chronic and current lateralized and diffuse brain lesions. *Journal of Consulting Psychology*, 26, 306-310.
35. Fitzhugh KB, Fitzhugh LC, & Reitan RM. 1963. Effects of chronic and current lateralized and non-lateralized cerebral lesions upon Trail Making Tests performances. *Journal of Nervous and Mental Disease*, 137, 82-87.
36. Fitzhugh KB, Fitzhugh LC, & Reitan RM. 1964. Influence of age upon measures of problem solving and experiential background in subjects with long-standing cerebral dysfunction. *Journal of Gerontology*, 19, 132-134.
37. Fitzhugh LC, Fitzhugh KB, & Reitan RM. 1960. Adaptive abilities and intellectual functioning in hospitalized alcoholics. *Quarterly Journal of Studies on Alcohol*, 21, 414-423.

38. Fitzhugh LC, Fitzhugh KB, & Reitan RM. 1962. Sensorimotor deficits of brain-damaged subjects in relation to intellectual level. *Perceptual and Motor Skills*, 15, 603-608.
39. Fitzhugh LC, Fitzhugh KB, & Reitan RM. 1965. Adaptive abilities and intellectual functioning of hospitalized alcoholics: Further considerations. *Quarterly Journal of Studies on Alcohol*, 26, 402-411.
40. Forsyth GA, Gaddes WJ, Reitan RM, & Tryk HE. 1971. Intellectual deficit in multiple sclerosis as indicated by psychological tests. *Research Monograph No. 23*. Victoria, BC (Canada): University of Victoria.
41. Grant I, Mohns L, Miller M, & Reitan RM. 1976. A neuropsychological study of polydrug users. *Archives of General Psychiatry*, 33, 973-978.
42. Green TK, & Reitan RM. 1975. Effect of the rate of lesion development on behavioral adaptations in intracranial neoplasms. *Neuroscience Abstracts*, Vol. I, No. 1068, p. 692. Rockville, MD: Society for Neuroscience.
43. Heimbürger RF, DeMyer W, & Reitan RM. 1964. Implications of Gerstmann's syndrome. *Journal of Neurology, Neurosurgery and Psychiatry*, 27, 52-57.
44. Heimbürger RF, & Reitan RM. 1957. *Testing for aphasia and related disorders*. Indianapolis: Indiana University Medical Center.
45. Heimbürger RF, & Reitan RM. 1961. Easily administered written test for lateralizing brain lesions. *Journal of Neurosurgery*, 18, 301-312.
46. Herring S, & Reitan RM. 1986. Sex similarities in Verbal and Performance IQ deficits following unilateral cerebral lesions. *Journal of Consulting and Clinical Psychology*, 54, 537-541.
47. Herring S, & Reitan RM. 1992. Gender influences on neuropsychological performance following unilateral cerebral lesions. *The Clinical Neuropsychologist*, 6, 431-442.
48. Hom J, & Reitan RM. 1982. Effect of lateralized cerebral damage upon contralateral and ipsilateral sensorimotor performances. *Journal of Clinical Neuropsychology*, 4, 249-268.
49. Hom J, & Reitan RM. 1984. Neuropsychological correlates of rapidly vs. slowly growing intrinsic neoplasms. *Journal of Clinical Neuropsychology*, 6, 309-324.

50. Hom J, & Reitan RM. 1990. Generalized cognitive function after stroke. *Journal of Clinical and Experimental Neuropsychology*, 12, 644-654.
51. Kløve H, & Reitan RM. 1958. The effect of dysphasia and spatial distortion on Wechsler-Bellevue results. *Archives of Neurology and Psychiatry*, 80, 708-713.
52. Matthews CG, Guertin WH, & Reitan RM. 1962. Wechsler-Bellevue subtest mean rank orders in diverse diagnostic groups. *Psychological Reports*, 11, 3-9.
53. Matthews CG, & Reitan RM. 1961. Comparison of abstraction ability in retardates and in patients with cerebral lesions. *Perceptual and Motor Skills*, 13, 327-333.
54. Matthews CG, & Reitan RM. 1962. Psychomotor abilities of retardates and patients with cerebral lesions. *American Journal of Mental Deficiency*, 66, 607-612.
55. Matthews CG, & Reitan RM. 1963. Relationship of differential abstraction ability levels to psychological test performances in mentally retarded subjects. *American Journal of Mental Deficiency*, 68, 235-244.
56. Matthews CG, & Reitan RM. 1964. Correlations of Wechsler-Bellevue rank orders of subtest means in lateralized and non-lateralized brain-damaged groups. *Perceptual and Motor Skills*, 19, 391-399.
57. Meyerink LH, Reitan RM, & Selz M. 1985. The validity of the MMPI with multiple sclerosis patients. *Journal of Clinical Psychology*, 44, 764-769.
58. Nici J, & Reitan RM. 1987. Patterns of neuropsychological ability in brain-damaged versus normal children. *Journal of Clinical and Consulting Psychology*, 54, 542-545.
59. Reed HBC, & Reitan RM. 1962. The significance of age in the performance of a complex psychomotor task by brain-damaged and non-brain-damaged subjects. *Journal of Gerontology*, 17, 193-196.
60. Reed HBC, & Reitan RM. 1963a. Changes in psychological test performances associated with the normal aging process. *Journal of Gerontology*, 18, 271-274.
61. Reed HBC, & Reitan RM. 1963b. A comparison of the effects of the normal aging process with the effects of organic brain damage on adaptive abilities. *Journal of Gerontology*, 18, 177-179.
62. Reed HBC, & Reitan RM. 1963c. Intelligence test performances of brain-damaged subjects with lateralized motor deficits. *Journal of Consulting Psychology*, 27, 102-106.

63. Reed HBC, Reitan RM, & Kløve H. 1965. The influence of cerebral lesions on psychological test performances of older children. *Journal of Consulting Psychology*, 29, 247-251.
64. Reed JC, & Reitan RM. 1969. Verbal and performance differences among brain-injured children with lateralized motor deficits. *Perceptual and Motor Skills*, 29, 747-752.
65. Reitan RM. 1950. *Relationships of certain Rorschach Test indicators to the abstraction and power factors of biological intelligence*. Unpublished doctoral dissertation, University of Chicago.
66. Reitan RM. 1953a. Intellectual functions in aphasic and non-aphasic brain-injured subjects. *Neurology*, 3, 202-212.
67. Reitan RM. 1953b. Intellectual functions in myxedema. *AMA Archives of Neurology and Psychiatry*, 69, 436-449.
68. Reitan RM. 1954a. The distribution according to age of psychologic measures dependent upon organic brain functions. *Journal of Gerontology*, 9, 480-481.
69. Reitan RM. 1954b. Intellectual and affective changes in essential hypertension. *American Journal of Psychiatry*, 110, 817-824.
70. Reitan RM. 1954c. Intellectual and affective functions in chronic brucellosis. *American Journal of Psychiatry*, 110, 19-28.
71. Reitan RM. 1954d. Intelligence and language functions in dysphasic patients. *Diseases of the Nervous System*, 15, 2-8.
72. Reitan RM. 1954e. The performance of aphasic, non-aphasic and control subjects on the Rorschach Test. *Journal of General Psychology*, 51, 199-212.
73. Reitan RM. 1955a. Affective disturbances in brain-damaged patients: Measurements with the Minnesota Multiphasic Personality Inventory. *AMA Archives of Neurology and Psychiatry*, 73, 530-532.
74. Reitan RM. 1955b. Certain differential effects of left and right cerebral lesions in human adults. *Journal of Comparative and Physiological Psychology*, 48, 474-477.
75. Reitan RM. 1955c. Discussion: Symposium on the temporal lobe. *Archives of Neurology and Psychiatry*, 74, 569-570.

76. Reitan RM. 1955d. The distribution according to age of a psychologic measure dependent upon organic brain functions. *Journal of Gerontology*, 10, 338-340.
77. Reitan RM. 1955e. Evaluation of the postconcussion syndrome with the Rorschach Test. *Journal of Nervous and Mental Disease*, 121, 463-467.
78. Reitan RM. 1955f. An investigation of the validity of Halstead's measures of biological intelligence. *Archives of Neurology and Psychiatry*, 73, 28-35.
79. Reitan RM. 1955g. Relation of Rorschach Test ratios to brain injury. *Journal of General Psychology*, 53, 97-107.
80. Reitan RM. 1955h. The relation of the Trail Making Test to organic brain damage. *Journal of Consulting Psychology*, 19, 393-394.
81. Reitan RM. 1955i. Validity of Rorschach Test as a measure of psychological effects of brain damage. *AMA Archives of Neurology and Psychiatry*, 73, 445-451.
82. Reitan RM. 1956a. Investigation of relationships between psychometric and biological intelligence. *Journal of Nervous and Mental Disease*, 123, 536-541.
83. Reitan RM. 1956b. The relationship of the Halstead Impairment Index and the Wechsler-Bellevue Weighted Score to chronological age. *Journal of Gerontology*, 2, 4.
84. Reitan RM. 1957a. The comparative effects of placebo, Ultram, and meprobamate on psychological test performance. *Antibiotic Medicine and Clinical Therapy*, 4, 158-165.
85. Reitan RM. 1957b. The comparative significance of qualitative and quantitative psychological changes with brain damage. *Proceedings of the Fifteenth International Congress of Psychology*, 214-215.
86. Reitan RM. 1957c. Differential patterns of results in lateralized and localized cerebral lesions. *Proceedings of the Fifteenth International Congress of Psychology*, 208-209.
87. Reitan RM. 1957d. Differential reaction of various psychological tests to age. *Proceedings of the Fourth Congress of International Association of Gerontology*, 4, 158-165.
88. Reitan RM. 1958a. Qualitative versus quantitative mental changes following brain damage. *Journal of Psychology*, 46, 339-346.
89. Reitan RM. 1958b. The validity of the Trail Making Test as an indicator of organic brain damage. *Perceptual and Motor Skills*, 8, 271-276.

90. Reitan RM. 1959a. The comparative effects of brain damage on the Halstead Impairment Index and the Wechsler-Bellevue Scale. *Journal of Clinical Psychology*, 15, 281-285.
91. Reitan RM. 1959b. Correlations between the Trail Making Test and the Wechsler-Bellevue Scale. *Perceptual and Motor Skills*, 9, 127-130.
92. Reitan RM. 1959c. Effects of brain damage on a psychomotor problem-solving task. *Perceptual and Motor Skills*, 9, 211-215.
93. Reitan RM. 1959d. *The effects of brain lesions on adaptive abilities in human beings*. Tucson, AZ: Neuropsychology Press.
94. Reitan RM. 1959e. Impairment of abstraction ability in brain damage: Quantitative versus qualitative changes. *Journal of Psychology*, 48, 97-102.
95. Reitan RM. 1959f. Preparing grant requests for support of mental health research. *Report of Conference on Mental Health Research*, Association for Advancement of Mental Health Research and Education, 110-116.
96. Reitan RM. 1960a. The comparative behavioral effects of phenglycodol, meprobamate, and placebo. In L Uhr & J Miller (Eds), *Drugs and behavior* (pp. 365-367). New York: John Wiley & Sons.
97. Reitan RM. 1960b. The significance of dysphasia for intelligence and adaptive abilities. *Journal of Psychology*, 50, 355-376.
98. Reitan RM. 1961a. Somesthesia and the cerebrum. Review. *Contemporary Psychology*, 6, 272-273.
99. Reitan RM. 1961b. Words, music, and the brain. *Contemporary Psychology*, 8, 108-110.
100. Reitan RM. 1962a. The comparative psychological significance of aging in groups with and without organic brain damage. In C Tibbitts and W Donahue (Eds), *Social and psychological aspects of aging* (pp. 880-887). New York: Columbia University Press.
101. Reitan RM. 1962b. Problems in evaluating the psychological effects of brain lesions [Special supplement]. *APA Division 22 Newsletter*.
102. Reitan RM. 1962c. Psychological deficit. *Annual Review of Psychology*, 13, 415-444.
103. Reitan RM. 1963. Words, music and the brain. *Review of Contemporary Psychology*, 8, 108-110.
